

Subject: **NEGATIVE RESULTS OF ABRASION TEST**

Proposal **Technical Committee**

QUALANOD resolution: **Meeting held on 18 November 2005
(ratified on 28 June 2006)**

Date of application: **July 2006**

Amendments to the Specifications: **Paragraph 5.1.1.6**

5.1.1 Inspection of finished products (P)

~~Except for the abrasion test which is indicative,~~ All test results must be in accordance with the requirements of the Specifications.

5.1.1.6 Abrasion resistance test

If the samples taken according to section 5.1.1.2 include samples of thickness classes 20 or 25, the inspector will perform the abrasion resistance test (Appendix IV) on one of those samples ~~for information purposes.~~

If the result of the abrasion resistance test is negative, the referee test will be applied automatically (see section 2.4.2). If the referee test is negative, the visit will be considered unsatisfactory.
